Through the cooperation of the local doctors, nurses, and interested citizens, the people of Hamlin will have an opportunity to virtually eliminate the possibility of Hamlin having a polio epidemic in the future.

Although most people seem to be under the impression that since they have had Salk shots they do not have to worry about polio anymore, this is not the case since the Salk shots only protect against paralytic polio. There is still a need to wipe out the disease.

With everyone taking the vaccine at the same time it will be much simpler to remember when the next dose is due.

If you plan to be out of the area on Sunday, September 16, try to be back in town before 7 p.m. Sunday evening so that you and your family can be protected.

While the vaccine will be administered free of charge, it is hoped that the people will donate enough money to reimburse the doctors for the vaccine.

A special effort should be made to reach all of the preschool children during this drive because they are the hardest group to reach and the group that stands to lose the most from polio.

The 1962 Homecoming of the Hamlin Ex-Students should prove to be quite an affair. Never have I seen so many people giving their wholehearted support to one project.

A great deal of credit is due Mrs. Kenneth Riddle who has devoted untold hours to this cause and seems to have the knack of getting other people to help.

This is but another example of what someone with a dream, and the determination to see the dream come true, can accomplish.

I am sure that in the beginning there were many who said that they were taking on too much of a job. And probably if they were to stop and look back now they would see that these people were probably right.

But if you don't know that you are trying to do too much, and just buckle down and go to work, it is amazing how much you can accomplish.

If the people of Hamlin will make up their minds that they want something bad enough and roll up their sleeves and go to work the possibilities are unlimited.

It would seem to me that some of the other organizations should do well to take advantage of Mrs. Riddle's talents (after she has a chance to get over homecoming) and do a little dreaming about what they would like to see done in Hamlin.

GETTING READY FOR SEPT. 16—Directors of the Sabine oral polio mass inoculation program to be staged here this fall met Monday at 3:00 p.m. with Mrs. Rudy Hamric, seated, center, program co-ordinator, to discuss the plans of administration of the vaccine. Pictured are left to right, Robert Fowler, BCD president, Dr. M. L. Smith, co-medical director and City Health Officer, Mrs. Hamric, Mrs. W. W. Wallace, school nurse, and Mrs. Ned Moore, secretary of the BCD. The program is being sponsored by the Hamlin Board of Community Development. The first of the series of doses will be held Sept. 16 from 1 to 7 p.m.

Plans Laid Monday for Local Polio Vaccine Drive

A planning session was conducted Monday afternoon in the Hamlin Board of Community Development office to discuss the administration of the Sabine oral polio vaccine here.

The program is being set up to coincide with the schedule in many area towns. The first dose will be Type I and will be given on Sept. 16 from 1 to 7 p.m. in the Hamlin High School Gymnasium. Type III will then be given Oct. 28 and the last of the series, Type II, will be given on Dec. 9.

Mrs. Rudy Hamric, program co-ordinator for Hamlin, presided and mapped out duties for those who will be responsible for the various phases of the campaign.

Medical Directors for the program are Dr. M. L. Smith, Dr. E. J. Hawkins and Dr. E. D. Perrin. The sponsoring

group is the Board of Community Development.

During the meeting Dr. Smith pointed out those people who have had the Salk shots should take the oral vaccine. He said, "The Salk vaccine prevents paralytic polio but the oral vaccine prevents polio."

Each of the three doses are complete within themselves therefore each person should take all three doses to be immune to all polio known to medical science.

Mrs. Hamric said that the Sabine oral vaccine had already been purchased and doses for 4,000 persons have been secured for the Hamlin area. The local group is working with the Taylor-Jones County Medical Society on the campaign.

The program calls for every one taking their dose between

1 and 7 p.m. and only Type I will be given at this time. The vaccine must be kept at a certain temperature and will spoil if not used within the prescribed time thus necessitating the mass inoculation type administration.

The oral vaccine is recommended for everyone, from babies six weeks old to include all ages.

Mrs. Bob Craig, publicity chairman, Mrs. W. W. Wallace, school nurse, B. V. Newberry, Hamlin High School Principal, will handle the publicity in the schools. The Rev. Fred Brown, president of the Ministerial Alliance will contact the churches in regard to the program.

Mrs. Ned Moore, secretary of the BCD, will be the director of professional and community relations.

Directors of distribution and supplies are Doug Justice, manager of the Hamlin hospital, Rudy Hamric, local lawyer, and Ned Moore of West Texas Utilities. They will be responsible for transporting the vaccine from the frozen food lock-up plant to the gym and maintaining it at the proper temperature.

Robert Fowler, president of the BCD, and James Rodgers, local CPA, will be in charge of the records and surveillance. Ned Moore Jr., sophomore student at McMurry College, Abilene, is preparing colored posters and exhibits for the campaign.

Present for the meeting were Dr. Smith, Mr. Newberry, Moore, Fowler, Rodgers, Mmes. Hamric, Moore, Craig, Wallace and from Aspermont, Oscar Dickerson, president of the Aspermont Luncheon Club and Mrs. Robert Boldaz, school nurse.

Plans are now being made to include Aspermont in the West Texas area drive.

'62 Homecoming Plans List Several 'Firsts'

Many firsts are being added to the Homecoming activities this year as the officers and other ex-students work long hours to get everything ready for the eighth annual event.

This will be the first time for the football game to be scheduled on Saturday evening to enable those who travel the game.

A long distance to be here for also the publication of an ex-student directory is unprecedented. The directory which is now being printed will contain more than 2,000 names of former students with information about them, if it was available at press time. The publication is being folded and assembled by the former students.

The parade will also be an initial undertaking. Pep rallies have been held in the past but this year the whole town is entering into the spirit of the Homecoming and is participating in many ways.

Floats and entries from civic organizations, clubs, school organizations, businesses, classes, one riding club and an old car division will make up the parade which will line up on the Rotan Highway and proceed downtown at 10:00 a.m. Saturday.

The ex-students are being given a chance for the first time on their choice for the ex-student queen from the seven nominees which were chosen by the ex-student officers. Voting will be completed this week.

The children are also being given a special place in this year's activities as several children of former students will appear on the program Saturday morning at 10:00 a.m.

Also, a child's plate is being offered for 75c for both the noon meal and supper.

The program Saturday afternoon will open with organ selections by Judy Fitzgerald and then will be called to order by Auctioneer Cecil Sellers of the class of '39.

The invocation in song will

be presented by Hal Walker of Dallas.

C. F. Cook, superintendent of schools, will welcome the assembly.

Basil J. Teague, valedictorian of the Class of 1918, will speak briefly on "What Homecoming Means to Me."

"School Days" will then be presented by Denise Preston. J. C. Tittle, Hamlin's first football coach, now of Austin, will highlight the program with a short talk.

Past Homecoming queens will be presented. These will be Mrs. Jack Russell (1939),

Mrs. Austin Poe, (1957) Miss Mae James (1958), Mrs. Brad Sowland Sr. (1959), Mrs. Brad Rowland (1960), Mrs. Garland Preston (1961).

The 1962 Queen Nominees will then be recognized. These include Mrs. Jack Wilson of Anson, Mrs. Robert Fowler of Hamlin, Mrs. Jack Howard of Denver, Colo., Mrs. Henry Albritton of Hamlin, Mrs. Birt G. Deel of Clyde, Mrs. George Kinney of Stamford and Mrs. Vivian Williams of Slaton.

Thank Heaven For Little Girls" sung by Jack Wilson of Anson will be followed by the

introduction of Evelyn Bal-
low Miller of Belton, former
speech and tap dancing teacher,
by Mrs. Bill Shira.

Mrs. Miller, who is well known for her presentation of book reviews, will be the commentators for the show of fashions from 1894, 1918, the early Twenties, the Thirties and the present 1962 fashion.

Models will be Mmes. Dean Witt, Darrell Wheat, H. M. Drake of Abilene, Thomas Ferguson, Pete Bond, Jack Owen, Tom Porter West of Abilene, Misses Nina Jean, Bunny Patterson and Rebecca Ferguson.

Vickie Walker of Dallas will present a tap dance routine.

Freida Ford will sing "Whatever Will Be Will Be."

Piano selections will be presented by Ann and Mary Ford of Abilene.

The program will close with a business session.

The Rainbow Girls who will be dressed formally and serve as shers are: Gloria Jenkins, Cindy Stephens, Elizabeth Cunningham, Carolyn Reynolds, Marilyn Reynolds, Connie Dun-
can, Sue Perryman, Lynn Miller, Glenda Hudspeth, Pam Smith, Mary Lois Patterson, Christie Wallace, Mary Margaret Turner.

Mrs. Ken Riddle, president of the Ex-Student Association said this week that everyone is invited to attend the Homecoming. She said "Just as everyone took part in the rodeo because it 'was Hamlin's' we want everyone to take part in Homecoming because it too 'is Hamlin's.'" She also mentioned that the cooperation of those who have helped has been outstanding and many people who are not ex-students have shown tremendous interest.

Tickets are now on sale for the football game, the noon meal and the fried chicken supper on Saturday.

OLD GLORY ...

The Old Glory school started with a bang. We started with the lowest enrollment in the history of the school, although there are a few more pupils expected. The enrollment was 7. There was an assembly in the cafeteria of all the school to get acquainted with the new teachers and to learn the rules. The books were issued and the teachers got acquainted with the pupils.

The seniors were thrilled to receive their rings the first day of school. The seniors are Sharon Leverett, Kenny Spitzer, Tim Jennings, Billie Vahlenkamp, Sofia Vargas, and John Hunt.

West Texas Utilities

The demand for electricity in our service area is growing rapidly. The reason is simple — there are more people, more businesses, more industries coming here into the Center of the Southwest.

That is why we are investing millions in new electric generating capacity and in new distribution facilities to keep pace with this area's exciting growth.

But of more significance, this fact explains why we are planning vast additional expenditures in anticipation of even greater growth to come.

Because the Southwest is growing 25% faster than the Nation, we are convinced that our service area — the Center of the Southwest — faces GROWTH UNLIMITED.

Eggs May Look Alike

...but what a difference there can be

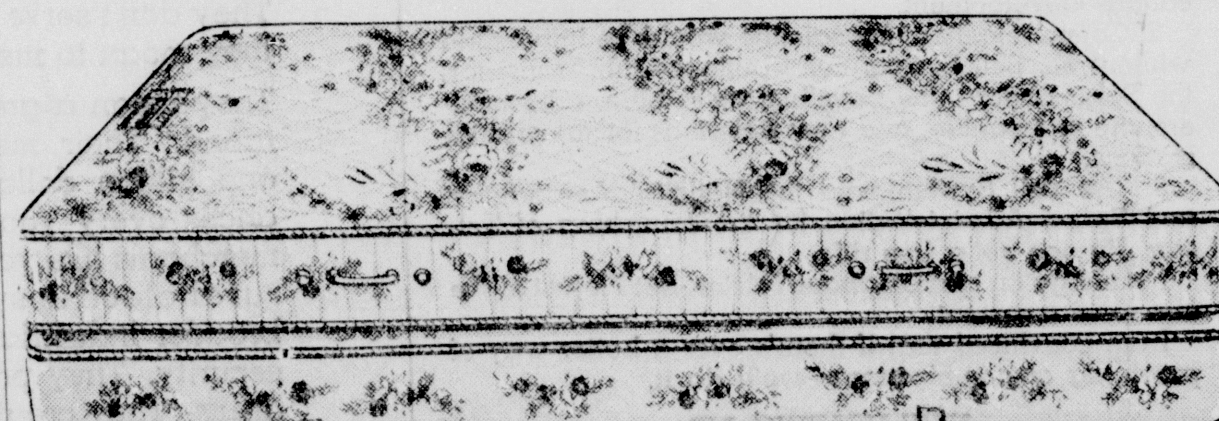

Same is true of mattresses. Two of them may look alike but one will give years of the most comfortable sleep you've ever known; the other may never be really comfortable and will become less comfortable every day it is used.

That makes quite a problem for a person about to buy a mattress. Our suggestion is that you select a brand that has built a good reputation over a period of years and that you buy from a store that emphasizes mattresses, knows mattresses and also has built a good reputation. To make it brief, come to our store and see Beautyrest.

Why us? Well, we carry a complete selection of Beautyrest models (few stores do) and we will take pains to help you select the model that is best for you.

School to Offer Insurance for Pupils Again

The Hamlin Public Schools for the past several years have offered the children of the school accident insurance. This insurance if offered to the children at a cost of \$3.00 per year. This cost is the same as it was last year. The company is the same also.

The administration and the teachers recommend that each child be insured under this policy. If any parent needs further information in regard to

the insurance, please call on any of the school personnel.

All students participating in sports are required to have this insurance. Also students in band, pep squad and other activities that require transportation. If for any reason a parent desires not to insure their child, we will need written responsibility by them because we cannot assume all the responsibility.

The second day of school, material will be given each child in our school explaining the coverage and other information. Please read this completely and if you are interested, send back the envelope to your child's teacher.

No person on our school faculty receives any money for this service nor does any receive any part of the premium. This is only a service to our children from our school personnel and administrator.

NEINDA PHILOSOPHER BOWLED OVER BY CITY WRITER'S IDEAS ON SOLUTION TO THE FARM PROBLEM

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 has gotten hold of another big city newspaper, with the following results:

Dearl editar:
If I lived in a city surrounded by all those unsolved schools, parking, etc. ET ET problems like traffic, lack of tax money, crime, congestion, crowded schools, parking, etc., I'd devote my time too to solving the farm problem, and it was with considerable interest I ran into a newspaper which a puff of August wind turned up out here on this Johnson grass farm the other day with an article in it by a big city columnist discussing the farm problem. He has a brand new explanation for the farm surplus.

Now up to now, I've been contending all along the farm surplus was due to the fact us farmers are just more capable than say for example the space scientists. Everybody from President Kennedy on down admits the Russians are ahead of us in space, just as

everybody from Mr. Khrushchev on down admits us American farmers are ahead of the Russians in food production. I don't want to brag, but there are the facts.

But this big city columnist has adifferent explanation altogether. According to him, "all this productivity in American agriculture is not necessarily the result of progress." He claims that "federal policies have been drawing into agriculture the small-town banker, the small-town doctor and anybody else after a fast buck."

In other words, it's all those small-town bankers and small-town doctors and lawyers who have bought up the farm land and produced the surplus in order to make some fast bucks. Wasn't us farmers at all.

Now I don't want to criticize this city columnist, and after all, you've got to remember that one of the most inviting things about the farm problem is that anybody can offer a solution to it, safe in the knowledge that nobody else has found the right answer either, but what I'd like to know is where are all those bankers and doctors and lawyers who are making all those fast bucks by farming?

after all, farm problem is that anybody yean offer a solution to it, safe ein the knowledge that nobody else has found the right answer either, but what I'd like to know is where are all those bankers and doctors and lawyers who are making all those fast bucks by farming?

Now I konw some bankers and doctors and lawyers who own some land, but it has been my opinion that all of them together haven't added over two inches to the mile-high surplus, and as for making any money, fast bucks or slow ones, I'm afraid that city columnist hasn't had an opportunity to examine their farm ledgers.

And I notice very few of them are giving up their jobs in town to really go whole-hog after those fast bucks out in the country.

Another nice tning about the farm problem is that it puts city columnists in the same class with country columnists when it comes to finding a

solution, and if I lived in a big city with all those city problems closing in on me, I'd attack the farm problem myself at least twice a week and sometimes on Sunday.

Yours faithfully,
J. A.
